

# Companion Plants

## General Information:

Some plants enjoy mutual benefits one from another. Vegetable, herbs, and annuals demonstrate one such relationship in one of two ways, either by improving the flavor of those vegetables near which it is planted or by repelling insect pests that damage vegetable crops.

Plant	Good Companion	Bad Companion
Basil	Pepper, Tomato, Marigold	
Beans, Bush	Beets, Cabbage, Carrots, Celery, Corn, Cucumbers, Eggplant, Lettuce, Pea, Radish, Strawberry, Savory, Tansy, Marigold	Onion
