

## Pre-Planting Checklist

To ensure the success of your new trees & shrubs, we ask that you review this checklist. If you have any questions, please call us at: 717-572-3972 or e-mail [landscaping@SKH.com](mailto:landscaping@SKH.com)

- Are drainage, climate and exposure (sun, shade and wind) conditions appropriate for the plants being installed? If you are unsure, please ask us for advice.
- Is the planting area clear of all stumps, ground cover, debris, etc?
- Let us know if there are any underground utilities in the area. If necessary Stauffers will call 811 and have the lines marked.
- Have you placed flags to clearly identify where the plants go? Write the name of each plant on each flag.
- Is the planting area easy to find? Are all gates unlocked? Can the area be reached with a wheelbarrow?
